Science Books Online is a directory of free ebooks for all areas of science. The books range from small PDF pamphlets to full-length texts made available in electronic form for free. Most of the materials have to be downloaded in order to be viewed but there are some materials that you can view directly within your browser.

Free eBooks at Planet eBook: <http://www.planetebook.com/>

Find Free eBooks On BookServer: <http://www.archive.org/bookserver>

The **Internet Archive** is, in general, a very good place to find all manner of free information in text, audio, image, and video formats. On Monday, the **Internet Archive** launched a new service called **BookServer**. (<http://www.archive.org/bookserver>) **BookServer** is a search engine for finding, borrowing, downloading, and purchasing books in digital form. A search on **BookServer** will yield results listing both free ebooks and ebooks for sale. I gave it a try this afternoon

and was impressed by the quantity of titles that are available. That said, the BookServer's search tools could use some improvement. **Applications for Education** If you or your students are willing to spend some time searching and browsing through the titles available through **BookServer**, you should be rewarded with some good free ebooks.

Other E-BOOKS and E Book Projects listed at:
